

TechScan Moisture Meter for Building Materials

New pinless moisture meter for quick detection of moisture.

Versatile and non-destructive, the all new **TechScan** combines innovative features with easy operation. Quickly cover large areas and locate high moisture spots with TechScan's advanced RF technology and user-adjustable alarm.

Need to take readings in hard-to-reach areas? Just freeze your readings on screen for more convenient viewing using the HOLD feature.

Two Scales:

- **Wood Scale:** 5% - 30% moisture range for use on wood materials such as flooring, kiln-dried lumber, furniture and cabinetry
- **Reference Scale:** Reads from 0 -100 on a relative basis for use on non-wood materials such as drywall and concrete

Features:

- Intuitive user interface
- Easy-to-read analog display
- Species correction chart
- Built in calibration/battery checks
- Auto shut-off timer saves battery life
- Audible, adjustable alarm alerts you when your pre-selected moisture content has been reached
- Moisture reading hold button freezes screen for future viewing
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case

Specifications:

Battery : (1) 9-V Alkaline

Sizes: 22 x 9 x 4,5 cms

5 5/8" x 3 5/16" x 1 1/4"

Weight: 241 g. (11 oz)

One-year warranty on instrument
