

HT-3000 Thermohygrometer

Measurement of temperature, Relative Humidity, Dew Point and Absolute Humidity in GPP*

* Grains Per Pound: The moisture weight in comparison to the weight of a determined amount of air

The **HT-3000** is an indispensable instrument in carrying out activities where the temperature and humidity play a significant role. By use of the HT-3000, in combination with one of our material moisture meters, the causes of moisture problems can be examined even better.

The **HT-3000 Thermo-hygrometer** is a great tool for monitoring the level of humidity in flooring installations, building inspections, restoration jobs, and even agriculture operations.

With a simple interface, fast acclimation, and useful statistics like dewpoint and grains per pound, the HT-3000 is a great value at an economical price.

Use the HT-3000 in conjunction with one of our moisture meters for a thorough assessment of every job.

One-year warranty on instrument, 3 months on electrodes

Features - HT-3000:

- Bright, clear digital display
- Fast response time
- Relative humidity range: 0%-100%
- Temperature Range: -4°F - 158°F (-20°C - 70°C)
- Dew Point Range: -40°F - 158°F (-40°C - 70°C)
- GPP Range: 1 GPP – 2000 GPP (.1 GPK – 285 GPK)
- Automatic Power Down
- Reading HOLD Feature.
- Size: 19 x 8 x 4,5cm
- Weight: 300 gr
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case
- 9V battery

No electrodes needed
